

BEOSOUND MOMENT

Access your music and streaming services with just one touch

ONE TOUCH TO THE MUSIC YOU LOVE

BeoSound Moment is an intelligent, wireless music system that integrates all your music and streaming services into one unique, two-sided interface. The touch-sensitive wood panel plays the music you are most likely to want to hear with just one touch. The aluminium surface lets you browse your music collection by flicking through your playlists, radio stations or artists - or simply select the mood you want to create on the MoodWheel, and let BeoSound Moment play the music that matches.

FEATURES

Ready for wireless BeoLink Multiroom sound

If you are looking to design a wireless setup around BeoSound Moment, you have the opportunity to combine it with a range of our BeoLink Multiroom products to enjoy the convenience, freedom and flexibility of wireless sound. BeoLink Multiroom technology is integrated and ready.

All your music in one place

Flip through all your playlists, access your favourite radio stations, browse through all your artists and explore Deezer's curated playlists.

MoodWheel

Mapping music to moods, one touch on the MoodWheel is all it takes to start the music. The warmer colours on the MoodWheel will play more up-tempo music, and the cooler colours will let you relax to more mellow tunes.

DLNA

Access to your personal music collection on your computer or NAS drive.

PatternPlay

Based on the day of the week and time of the day, PatternPlay keeps track of what you like. With one touch on the wooden touch interface, BeoSound Moment starts playing what you most likely want to hear.

Deezer®

Integrated music streaming service. BeoSound Moment is introduced with one year's pre-paid Deezer® Premium subscription, included and ready to play (only in countries where Deezer is available).

TuneIn®

Integrated internet radio.
